

The Green Party of Washington acknowledges that we organize on the traditional land of the **First Peoples of Washington**. We honor the Tribes and Relatives, both past and present, who have made this land their home from time immemorial, as we honor the land itself with gratitude and intentional stewardship that looks forward to consider the generations that will follow.

"THE ENVIRONMENT AND THE ECONOMY ARE REALLY BOTH TWO SIDES OF THE SAME COIN. IF WE CANNOT SUSTAIN THE ENVIRONMENT, WE CANNOT SUSTAIN OURSELVES."
—WANGARI MAATHAI

We are part of nature. Policy frameworks must work for people and planet.

Greens persistently push toward a socially just, inclusive, and sustainable lifestyle as the ethical political model. Our state's true economic outlook at the everyday local level rests on responsible management of our abundant natural resources for future generations.

"WE ALREADY HAVE THE FACTS AND SOLUTIONS. ALL WE HAVE TO DO IS WAKE UP AND CHANGE."
—GRETA THUNBERG

A robust, viable Green Party is essential to move our country forward. **The Green Party of Washington State and local Green Parties supported by you means grassroots activism remains a powerful intervention against injustice and corporate control over our democracy at state and other levels of government.**

ABOUT GREENS

Greens are diverse individualists who are aligned over our political 'four pillars' ethics:

- **ecological wisdom & respect**
- **social justice & human rights**
- **peace & non-violence**
- **decentralization, local self-determination, and grassroots democracy**

GLOBALGREENS.ORG

Worldwide, Greens are a coalition party. In Parliament, the Green Party functions with others to work towards policy builds that further our 'four pillars' agenda.

GP.ORG

In the **United States** the two-party system dominated by the **Republican** and **Democratic** parties, shuts out participation from 'third party' groups.

GREENS SAY NO TO CORPORATE DONORS

Corporate entities have legal rights to "free speech" in the US. These are the 'voters' that Republicans and Democrats are most responsive to, Corporate speech is money.

Greens do not take corporate money.

Our platform excludes financial bargains with resource extractive capitalists, support for wage slavery, war profiteers, school to prison pipelines, or illness for profit.

Greens spend more time as individuals working on issues

than campaigns because 'ballot access' is not automatic for Greens. In Washington we may not register as Green. Most Greens identify as Independents. Some Greens decline to vote in 'rigged' elections.

Greens are a grassroots decentralized political organization.

Local and State parties are affiliated with each other yet autonomous. The 4 pillars and 10 key values are upheld differently by different groups.

Activists flow in and out of the Green Party according to the issues that arise.

No one really knows how many Greens there are.
